Tableware that cares for the planet

Indiaroot Exports Private Ltd. Product Catalogue

Our product range is not limited to the items listed in this catalogue. We also provide customized solutions and can supply additional eco-friendly products based on your specific requirements.

About us:

🌱 At IndiaRoot Exports, we believe single-use shouldn't come at the planet's expense. Based in Delhi, we're a merchant exporter dedicated to delivering premium, eco-friendly disposable tableware that blends sustainability with everyday functionality.

📖 Our story is personal:

Both of us spent the last five years working at a global consulting firm, solving problems for clients across industries.

But home always kept us rooted. Coming from a family that has been wholesaling disposable tableware for over a decade and supplying across India, we grew up around this industry. It felt natural to combine that legacy with our global experience and build something of our own.

🏢 What we offer:

We work closely with trusted Indian manufacturers to source high-quality:

- 🍽️ Bagasse plates, bowls & clamshells
- 🥤 Paper cups & lids
- 🍴 Wooden cutlery
- 🧻 Tissues & napkins

👉 Why partner with IndiaRoot Exports:

With us, you're not just working with an exporter - you're working with:

- A family deeply rooted in the trade
- A team committed to sustainable growth
- Partners who listen, adapt, and deliver

~Founders
